

Wastewater Operator Vacancy Announcement

Wastewater Plant Operator

The Cumberland County Utilities Authority, located in Bridgeton New Jersey, will be hiring a Wastewater Operator. Operators of all experience and license levels are encouraged to apply.

Key Responsibilities

- Operates and controls Wastewater treatment processes in accordance with strategies developed by the Plant Process Manager, including the operation of ancillary facilities and equipment; duties may vary according to job assignment.
- Monitors operations to verify treatment plant performance is stable, and in compliance with state and Federal environmental and safety regulations, and City policies, procedures and standards.
- Monitors and evaluates Supervisory Control and Data Acquisition (SCADA) process control systems.
- Collects samples and conducts process control tests to monitor system performance.
- Assists technicians and mechanics to troubleshoot equipment failures and operational problems.
- Records operational data, telemetry readings, work logs and other prescribed work documentation.

Job Requirements

Experience: Strong organizational, analytical, communication and mechanical skills. Previous Wastewater/Water Treatment plant experience with responsibilities preferred.

Education: High school diploma/GED required. Specialized education in mathematics, chemistry, physics, biology, laboratory, or applied science is desirable.

Licenses and Certificates: Possession of or the ability to obtain a wastewater license (S1) from the NJDEP within 18 months.

Weekend, rotating shift and overtime work is required. Excellent compensation and benefit package. Applications are available online at www.ccuu.info, or may be picked up in person at the front office between the hours of 9am and 3 pm. Mail application and resume to Director; CCUA, 333 Water Street, Bridgeton, NJ 08302.
