

The Cumberland County Utilities Authority is accepting applications for the position of Executive Director.

The Cumberland County Utilities Authority's Executive Director is an essential member of the CCUA's leadership team and is responsible for leading a team of professionals with delivering quality, professional utilities services to the public. The CCUA is known for providing outstanding services to the community and citizens of Cumberland County.

The CCUA is currently accepting resumes of highly professional, innovative, and self-motivated candidates for its Executive Director's position. The successful candidate's responsibilities will involve coordination with professional consultants; working with contract documents; project management; tracking of regulatory compliance requirements; and various other projects. Candidate must have a strong understanding and experience of advanced automated control systems utilizing SCADA and PLC, and at a minimum of ten (10) years of substantial experience with the operation and management of comparable wastewater facilities, with a minimum of five (5) years of executive level supervisory experience, holds a S-4 Wastewater Treatment license. A C-3 Wastewater Collection license and a certified Qualified Purchasing Agent QPA is highly desirable.

Detailed job description is available online at www.ccu.info "Current Projects".

Send resume to: Cumberland County Utilities Authority, Attn: Search Committee, 333 Water St., Bridgeton, NJ 08302, or email to: smick@ccua.info. *An Equal Opportunity Employer.*
